What's in this book?

Welcome to BIAfn's *Investing in Television*[®] 2007 *Ownership Report*. This is the premiere information guide profiling commercial television stations by owner. The book highlights 2,438 commercial television stations sorted by their 603 owners. All 210 U.S. Television markets, as well as Puerto Rico, are represented herein.

Other Television Publications

This book has a companion publication, *BIAfn's Investing in Television*[®] 2007 *Market Report*, from which the *Ownership Report's* information is extracted and reorganized by owner. The *Market Report* is a market-by-market investment guide providing an in-depth analysis of the financial, economic and demographic health of the individual markets, plus Puerto Rico, and comprehensively profiles the competing television stations in that market.

BIAfn's Television Yearbook[®], a companion directory of more than 2,400 television stations, also profiles the industry geographically and provides the user with contact information for the individual television stations, including their key personnel and owners. It also contains a directory of professional services providers and equipment suppliers to the industry.

Data Provided Electronically (CD ROM, etc.)

All of this data and much, much more is available through BIAfn's powerful database software, BIAfn's MEDIA Access Pro™ Television Analyzer (formerly *MasterAccess*[®]). With more than 10,700 television stations profiled with more than 700 fields of data for each station, this is the most comprehensive, easy-to-use and accurate source of data available on the TV industry.

For more information on the publications, software and custom research services offered by BIAfn, call a BIAfn representative at 1-800-331-5086 and/or see the last page of this book for a Price List and Order Form.

Ownership Report Overview

1 Ownership Contact Information

Company Name: This is the common name of the owning entity of the stations profiled.

NOTE: This may not be the licensee's name.

Primary Contact: Either through survey responses or from FCC documentation, this is the primary contact provided for this owner. Unless instructed otherwise by the profiled company, BIAfn lists the President, CEO, Managing Partner, Chairman or other top executive position. **NOTE:** Deeper ownership contacts (CFO, COO, etc.) are available in BIAfn's MEDIA Access Pro™ database software.

Address: The address of the company's headquarters is profiled.

Phone and Fax: We provide the primary contact's phone and fax numbers.

2 Market and Rank

Market: The name of the Designated Market Area (DMA®) in which the profiled company's stations are rated. Designated Market Area is a Registered Trademark of, and is defined by, Nielsen Media Research.

Rank: The rank is based on the number of television households in the market.

3 Technical Attributes

Technical information is provided for both Analog and Digital signals.

Calls: Listed in order of market rank, these are the licensed call letters of the television stations licensed to the owner or proposed to be sold to this owner (signified by a "p" after the Date Acq).

Ch: The number of the over-the-air analog channel at which the station is located plus the licensed digital channel.

Visual Power (kW): The power in kilowatts at which the station transmits its signal for both analog & digital.

HAAT: Height above average terrain of the station's center of radiation (antenna) with respect to its surrounding terrain in feet for both analog & digital.

4 Station Acquisition Information

Year Std: The year the station first went on the air.

Date Acq: The date (Year Month) the station was acquired by this owner. A "p" after the acquired date indicates that the sale of the station is pending FCC approval.

Sales Price: Presented in thousands, this is the price paid for the station. To the right of the price you may encounter a code that signifies the type of transaction (See Keys & Codes). **NOTE:** Because the actual sales price of a station or group may vary from the reported price, caution should be exercised with respect to the use of these data. We have attempted to include the most recent ownership transfer activity from 1981 to a point approximately 2 weeks prior to publication. If a sale was proposed but not approved 2 weeks prior to publication, the owner listed is the proposed purchaser. Due to the complexity of the issue, major group purchase prices are not broken out among the stations purchased.

5 Affiliation (Affil)

The national network affiliation with which the station has an agreement to rebroadcast a significant portion (ten-plus hours) of the network's programming (see Keys & Codes).

6 Estimated Station Revenues (Est '05 Revenue)

BIAfn estimates revenues for the leading stations in most markets. BIAfn's revenue estimates do not include trade/barter, production or promotion revenues. We utilize direct mail surveys, telemarketing, market contacts and computer modeling to generate these estimates. Despite this effort, we must reiterate that these are just estimates. We view these estimates, however, as an important element to the book and encourage station operators and owners to participate in our surveys.
