Information About Investing in Radio® Ownership Report

What's in this book?

Welcome to BIA/Kelsey's *Investing in Radio® 2016 Ownership Report*. Published since 1986, this is the premiere information guide profiling the Nielsen Audio-rated commercial radio stations by owner. The book highlights the 10,683 commercial radio stations that serve a Nielsen Audio-rated market (or are owned by a group owner that owns other stations in rated markets) sorted by their 1,873 owners. All 272 Nielsen Audio-rated metro markets including Puerto Rico are represented herein.

Other Radio Publications

This book has a companion publication, *BIA/Kelsey's Investing in Radio*® 2016 Market Report, from which the Ownership Report's information is extracted and reorganized by owner. The Market Report is a market-by-market investment guide providing an in-depth analysis of the financial, economic and demographic health of the individual Nielsen Audio-rated metros and comprehensively profiles the competiting radio stations in that market.

BIA/Kelsey's Radio Yearbook® is a companion directory of more than 12,000 commercial radio stations, profiling the industry geographically and providing the user with contact information for the individual radio stations, including their key personnel and owners. It also contains a directory of professional services providers and equipment suppliers to the industry.

Data Provided Electronically (CD-ROM, etc.)

All of this data and much, much more is available through BIA/Kelsey's powerful database software, *BIA/Kelsey's MEDIA Access ProTM Radio Analyzer*. With more than 19,000 radio stations profiled with more than 700 fields of data for each station, this is the most comprehensive, easy-to-use and accurate source of data available on the radio industry.

For more information on the publications, software and custom research services offered by BIA/Kelsey, call a BIA/Kelsey representative at 1-800-331-5086 and/or see the last page of this book for a Price List and Order Form.

Ownership Report Overview

Ownership Contact Information

Company Name: This is the common name of the owning entity of the stations profiled. NOTE: This may not be the licensee's name.

Primary Contact: Either through survey responses or from FCC documentation, this is the primary contact provided for this owner. Unless instructed otherwise by the profiled company, BIA/Kelsey lists the President, CEO, Managing Partner, Chairman or other top executive position.

Address: The address of the company's headquarters is profiled.

Phone and Fax: We provide the primary contact's phone and fax numbers.

Nielsen Audio Market and Rank

Market: The name of the market(s) in which the profiled company's stations are rated. This market is defined by Nielsen Audio. An asterisk (*) in front of market name indicates it is a PPM Market.

Rank: The ranking of the market by size of 12+ population based on the U.S. census.

3 Technical Attributes

Call Letters: Listed in order of market rank, these are the licensed call letters of the commercial radio stations licensed to the owner or proposed to be sold to this owner (signified by a "p" after the Sales Price).

Frequency: The frequency from which the station broadcasts on the AM or FM dial.

Power: The power in kilowatts at which the station transmits its signal. A "cp" indicated next to the station's power signifies that a construction permit has been filed for approval with the FCC to change the station's technical operations.

HAAT/Night Power: For FMs the height above average terrain of the station's center of radiation (antenna) with respect to its surrounding terrain in feet is featured in this column. For AM stations, the number listed is the power at which the station is licensed to transmit at night.

Station Acquisition Information

Year Std: The year the station first went on the air.

Date Acq: The date (yymm) the station was acquired by this owner. If this is a pending sale, a "p" will follow the date.

Sales Price: Presented in thousands, this is the estimated price paid for the station. To the right of the price you may encounter a code that signifies the type of transaction (see Keys & Codes). NOTE: Because the actual sales price of a station or group may vary from the reported price, caution should be exercised with respect to the use of these data. We have attempted to include the most recent ownership transfer activity from 1981 to a point just prior to publication. If a sale was proposed but not approved prior to publication, the owner listed is the proposed purchaser. Due to the complexity of the issue, major group purchase prices are not broken out among the stations purchased.

5 Format

The format is the specific type of programming aired by the station. Format information is based on announcements in trade publications and direct contact with the stations through frequent telephone surveys and annual mail surveys. For a list of formats and the abbreviations used by BIA/Kelsey, see Formats for Radio Stations on the following pages.

6 Estimated Station Revenues

In an effort to improve the quality of this publication, we estimate revenues for the leading stations in most markets. BIA/Kelsey's revenue estimates do not include trade/barter, or production revenues. We utilize direct mail surveys, telemarketing, market contacts and computer modeling to generate these estimates. Despite this effort, we must reiterate that these are just estimates. We view these estimates, however, as an important element to the book and encourage station operators and owners to participate in our surveys.

7 Owner's Total Estimated Revenues

This figure is the sum of the Nielsen Audio-rated market stations' revenues estimated by BIA/Kelsey for this owner. Please note that this figure is just an estimate and may not include all the radio stations licensed to this owner. Some of the owner's stations may not be rated in a designated Nielsen Audio-rated market (a "non-Metro" station) and, therefore, will not be profiled here. Also, BIA/Kelsey does not estimate revenues for every station in a Nielsen Audio-rated market for various reasons.

8 Nielsen Audio Metro Shares

BIA/Kelsey is licensed by Nielsen Audio to provide its Total Day, Average Quarter Hour (AQH) shares for persons 12 years and older. We profile the last four ratings periods to enable the reader to analyze annual trends in a station's performance. You will notice that Nielsen Audio rates some markets 4 times per year and others only 2 times (Fall and Spring).

Formats for Radio Stations

Because some radio stations air multiple formats, abbreviations are often used for formats in the Competitive Overview section. These abbreviations may appear by themselves or combined with other format abbreviations. The abbreviations, their expansions, and the major format categories in which BIA/Kelsey classifies these formats are listed in the following table:
